Amazing soundtrack! Buuut I kinda wish the songs were in .mp3 and not in .ogg:-V. The songs are in .ogg, meaning you probably won't be able to burn these and listen to them on a CD player, which is kinda disappointing. The sound track isnt showing up in my steam music library so i cant even play it. I can't find the music in my library, which sucks because I loved the music throughout this game. It was awesome. If anyone knows how to fix this pr where to find it, please let me know.
